Study Aboard ERP

"Study Abroad" is a robust and integrated Foreign Education Consultancy Management System designed to streamline the entire study abroad process. The platform brings together students, recruitment partners, and partner schools on a unified platform, making the journey of studying abroad more efficient, transparent, and accessible. Study Abroad is more than just a consultancy management system; it's a comprehensive solution designed to simplify and enhance the study abroad experience for all involved. By leveraging the expertise of Daffodil Software Ltd, Study Abroad is well-positioned to become a trusted partner in the global education landscape, connecting students with their dream institutions and enabling a brighter future for all.

Why Study Abroad

Integrated Education Consultancy

Centralized Platform

1

Student-Centric Approach

3

Partnership with Leading Institutions

2

Support for Recruitment Partners

4

Advanced Technology

4

Customizable Solutions

4

Centralized Platform

Study Abroad serves as a single, centralized platform where students, recruitment partners, and educational institutions can interact seamlessly. This integration eliminates the traditional complexities of managing multiple platforms, making the process more straightforward and user-friendly

1

Student-Centric Approach

The system is designed with students at its core. It offers personalized guidance throughout the study abroad journey, from selecting the right courses and institutions to application submissions, visa processing, and pre-departure preparations.

2

Partnerships with Leading Institutions

Study Abroad connects students with a wide network of prestigious educational institutions worldwide. Partner schools can easily manage their recruitment processes, ensuring that they attract and enroll top-quality international students.

3

Support for Recruitment Partners

Recruitment partners benefit from tools that simplify student management, application tracking, and communication with partner schools. The platform provides analytics and reporting features to help recruitment agencies optimize their operations

4

Advanced Technology

Powered by Daffodil Software Ltd, a leading software company in Bangladesh established in 1998, Study Abroad leverages cutting-edge technology to deliver a secure, reliable, and efficient solution. The system is built to handle the complexities of foreign education consultancy, ensuring that all stakeholders have a smooth and successful experience.

5

customizable Solutions:

The platform offers customizable solutions that cater to the specific needs of different users. Whether you're a student looking to study abroad, a recruitment partner facilitating the process, or an institution seeking to attract international students, Study Abroad provides tailored tools and resources.
